Xperience AFI Durban Edition Postponed

Johannesburg, 16 June 2021. As a responsible corporate citizen and after a detailed risk assessment with the increase in COVID-19 cases and level 3 lockdown, African Fashion International (AFI) took the difficult decision to postpone the launch of Xperience AFI Durban from 30 June 2021 to November 2021.

Xperience AFI is an expressive platform for the youth by the youth. It blends fashion, music and creative lifestyles to empower young people through opportunities within the creative and cultural industries, and services as a response to high youth unemployment and labour market discouragement.

As our country is experiencing the third wave of Covid-19 we urge everyone to please be safe and adhere to all protocols
